

The diagram illustrates a mechanical assembly with the following components labeled:

- 1**: A central rectangular block with internal horizontal and vertical structures.
- 2**: A vertical component on the left side of the central block.
- 3**: A vertical component on the right side of the central block.
- 4**: A probe-like component extending from the right side of the central block.
- 5**: A cylindrical component at the end of the probe (4).
- 6**: A large rectangular block on the far right, connected to the probe (4).
- 7**: A small circular component at the bottom of the central block.
- 8**: A small circular component at the bottom of the central block.
- 9**: A small circular component at the bottom of the central block.
- 10**: A small circular component at the bottom of the central block.
- 11**: A horizontal component on the left side of the central block.
- 12**: A rectangular block at the bottom right, connected to the central block by a dashed line.
- 13**: A rectangular block at the bottom left, connected to the central block by a dashed line.
- 14**: A rectangular block at the bottom center, connected to blocks 12 and 13 by dashed lines.
